

ABOUT RTREAET - 2022

The 3rd Online International Conference on Recent Trends in Renewable Energy and Advancement in Engineering & Technology (RTREAET-2022) aims to bring together leading academicians, scientists, researchers, research scholars and industry personnel to exchange and share their experiences and research results about all aspects of renewable energy sources, engineering and technology. It also provides the premier interdisciplinary forum for scientists, engineers, and practitioners to present their latest research results, ideas, developments and applications in the area of science and technology. RTREAET-2022 plays a significant role in inspiring breakthrough innovations from fundamentals to technological challenges and applications that are shaping the era of Industry 4.0.

ABOUT THE INSTITUTE:

Mewat Engineering College (Wakf) is a unique venture of Haryana Waqf Board, Government of Haryana, in district Nuh, Mewat to impart quality higher technical education to the students of all sections of society. It was started in the year 2010-11 with four streams, ME, EEE, CSE and ECE leading to B. Tech degree course. Seeing the success and great demand, a new stream of Civil Engineering was started during session 2011-12. All these streams have been approved by All India Council for Technical Education (AICTE), New Delhi & Directorate of Technical Education (DTE), Haryana and affiliated to Gurugram University, Gurugram (GUG), Haryana. It has been granted the status of Minority Institution by the Government of Haryana. However, open to all communities.

ABOUT HAREDA

Haryana Government has set up Haryana Renewable Energy Development Agency (HAREDA) in May, 1997. It is acting as a nodal agency to implement various centrally and state sponsored schemes/projects in the area of renewable energy in the State. It is responsible for formulating policies and programmes necessary for popularizing the applications of various non - conventional and renewable sources of energy in the Haryana state.
